ABOUT ME

- Who am I
I'm Cristian, a 22-year-old student at KTH. I enjoy exploring new things, testing new technologies and improving my knowledge in the world of computer science
- My goals
To work in a role where I can bridge the gap between machine learning and software development in order to make better products

WORK EXPERIENCE

- WeKnowIT - App developer
Mars 2018- present
Developing customized apps with React Native for customers. Responsible for planning, building and delivering the entire product
- Topgolf Sweden - Software developer
May 2017 - August 2017
Built a Windows application from scratch with C# and WPF

EDUCATION

- KTH - Royal Institute of Technology
August 2015 - present
Pursuing a M.Sc in Computer Science with a specialization in data science and machine learning
- Åva Upper Secondary School
August 2012 - June 2015
Technology program

VOLUNTEER EXPERIENCE

- Project leader
January 2018 - December 2018
Head of the reception of new students at the computer science chapter. Lead a team of 60 students to organize 5 weeks of events for 200 people to partake in
- Group leader
January 2017 - December 2017
Lead a group of 26 students that worked with the reception of new students at the computer science chapter

SKILLS

- Javascript, HTML, CSS, React, React Native, Redux, Node, C#, WPF, Java, Python, Git, SQL
